### Laboratory Water Test

**Date Printed: March 19, 2008**

**Report To: RCI Technologies**  
Attention: Robert Randle  
466 West Arrow Highway, Suite D  
San Dimas, CA 91773

Phone 800-868-2088 Fax 909-305-1245  
Sample ID Regular Unleaded (10% Ethanol)  
PO # N/A  
RO # N/A

email robertr@rcitechnologies.com  
type of sample: Gasoline

sample run by Jason Kronlund

**Sample Notes:**

---

<b>Method</b>	<b>ASTM</b>
<b>Karl Fisher</b>	<b>D-1744</b>

---

**Results:** .....

**Baseline** **866 ppm**

Sample was then mixed with water to give a 5% or 50,000ppm water contamination. The sample was then run through a single pass on the RCI purifier. Another sample was then drawn and tested for water.

**After purification** **1625ppm**

**Based on test results, purifier removed approximately 99.9% of the water contamination.**
