

**MV B.B. Fine**

We installed an MFP 80 on the MV BB Fine, our 36-foot Krogen, well over 5 years ago. In the past, I have seen water and dirt particles in the small amount I have purged from the purifier. This year I decided to save everything purged from the unit during our 3350 mile cruise, fueling in Washington, Canada and Alaska.

The amount purged from the purifier totaled about a third of a gallon but "Boy, was it dirty." You can see the water, dirt, algae, sludge and other debris my Racor filter never got to see. After seeing this fuel, I am sure I would have had to change my Racor filter element several times during our cruise. Since installing the RCI Marine Fuel Purifier, I have never had a "plugged" filter.

I must be one of the happiest owners of your purifier, I continue to tell everyone I meet about your product and I know *I will never go to sea without the RCI Marine Fuel Purifier.*

# RCI TECHNOLOGIES MARINE FUEL PURIFIER

## MFP 80

WOULD HAVE HAD TO  
CHANGE THE RACOR  
FILTER ELEMENT...

HAVEN'T HAD A PLUGGED  
FILTER IN OVER 5 YEARS...

I WILL NEVER GO TO SEA  
WITHOUT THE RCI...
